

<p style="text-align: center;">Newmarket-Tay Power Distribution Ltd.</p> <p style="text-align: center;">Conditions of Service</p>	<p>Number: NT POWER COS-230-06</p> <p>Issue Date: July, 2007</p> <p>Next Review Date: February, 2020</p>
<p style="text-align: center;">Emergency Backup Generation Facility</p>	

1. Preamble

Consumers who install a portable or permanent *emergency backup generation facility* have obligations to the *Ontario Electrical Safety Code* and the *Electrical Safety Authority*. These *emergency backup generation facilities* must be installed to guarantee there can be no back-feeds into Newmarket-Tay Power Distribution Ltd.'s (NT POWER) *distribution system*.

2. Ontario Electrical Safety Code

Any *Consumer's emergency backup generation facility* cannot be installed in a manner which would adversely affect NT POWER's *distribution system*. *Consumers* with a portable or permanently connected *emergency backup generation facility* shall comply with all applicable criteria of the *Ontario Electrical Safety Code*. In particular, the *Consumer* shall ensure that the *Consumer's emergency backup generation facility* does not parallel with NT POWER's *distribution system*, or back-feed into it. There shall be proper interface protection between the *Consumer's* electrical circuits and NT POWER's *distribution system*.

3. Notification

Consumers with a permanently connected *emergency backup generation facility* shall notify NT POWER regarding the presence of such equipment. See NT POWERCOS-500, Appendix "P", for listing of known locations.

4. Personnel Safety

This *Conditions of Service* is critical to the safety of NT POWER employees, contractors and agents. All *Consumers* must stringently comply with them.
