

WIEBETECH

Drive eRazer Ultra

QUICK AND EASY
MULTI-FUNCTION
DEVICE THAT
COMPLETELY ERASES
ALL DATA FROM A HARD
DRIVE

FEATURES	BENEFITS
No Computer Required	Stand-alone operation completely erases all data from a hard drive quickly and easily.
Faster than Software	Erases drives at max drive write speed. Our testing shows 7 Gb/min on new drives and 2 GB/min on older drives.
LCD Panel	Easy to select erase mode with built-in menu. Provides estimated time to completion.
LEDs	Alerts you to the presence of hidden drive areas (HPA/DCO), power, and drive status (along with LCD)
Printer Port	Connects to Zebra brand serial printers for label output. Very useful for creating a paper trail of drive handling.
Erase Methods	Offers 10 preset erase methods including secure erase and Department of Defense (DoD) erase methods. Use one of the presets or create your own.
Built in USB	Built in USB for preview and verification.

Drive Compatibility	3.5" IDE/PATA Drives 2.5"/3.5" SATA Drives Supports adapters for other drives
Label output	4"x1" (summary label) 4"x6" (form based DoD cert of erasure document)

Before selling or disposing of your hard drives, you'll want to make sure your personal information is really removed from the drive first.

Completely erasing a hard drive isn't as easy as just hitting delete or reformatting it. To safely sanitize your drive, you need to write over it completely. If you don't, there are numerous ways someone could get at the personal, sensitive data on your hard drive.

Many IT departments or managers sanitize a drive using a computer and software, and the job takes hours. But the CRU™ WiebeTech® Drive eRazer™ Ultra doesn't need another computer. It's a stand-alone device that will completely clean your drive. Just connect it to the Drive eRazer Ultra and it will sanitize the drive faster than using software.

The WiebeTech Drive eRazer Ultra leaves the drive ready for re-use, and comes with more than ten preset erase procedures, including US Department of Defense graded methods for data wiping.

Additional features:

- Simple setup and operation with LCD and menu buttons
- USB port for drive viewing and confirmation
- Rugged aluminum construction
- Free US-based customer support

Whether you're an IT manager or business owner, and you want your sensitive information sanitized from an old drive, the CRU WiebeTech Drive eRazer Ultra is the perfect tool. Find a reseller near you or buy online.
